- ① Close all other running applications
- ② Insert the JPRO® Fleet Service Suite CD into your CD-ROM drive
- ③ Plug the JPRO® OBDII Adapter into the USB port on the PC
  - ❑ Windows displays the Found New Hardware Wizard
  - ❑ Select "No, not this time," then click Next
  - ❑ Select "Install the software automatically (Recommended)," then click Next
  - ❑ Click Finish to complete the installation

\*The steps listed above will need to be repeated as two sets of drivers must be installed
- ④ Connect the JPRO® OBDII Adapter to the OBDII port on the vehicle
- ⑤ Your JPRO® OBDII Adapter is ready to use with your diagnostic application!
